Postdoctoral Scholar Position in Security and Privacy for Networked Cyber-Physical Systems

Applications are invited for a post-doctoral position in the Department of Mechanical Engineering in the Bourns College of Engineering at the University of California, Riverside. The position will be in the broad area of security and privacy for large and interconnected cyber-physical systems. The appointee will join Prof. [Fabio Pasqualetti](#)'s group, lead interdisciplinary research activities, and interact with faculty and scientists across the college.

The position is open to recent PhDs in applied mathematics, computer science, statistics, and related fields, with demonstrated ability to conduct high impact research. The ideal candidate will have exceptional computational, analytical, and communication skills, and will have outstanding potential for scientific research. Competitive candidates will also have familiarity with control and network theories, data analysis, machine learning, and techniques for the analysis of large data-sets.

To apply, please email a CV, a research statement describing how your interests and expertise relate to the position, and two letters of reference to Fabio Pasqualetti at fabiopas@engr.ucr.edu. The appointment will be available as of September 1st 2017, with an expected duration of up to two years. Salary and benefits are commensurate with experience.

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, age, disability, protected veteran status, or any other characteristic protected by law.
